Overview / Fakalūkufua

The Tupulaki Community Grants program (formerly the Direct Aid Program) is a competitive, flexible small grants program funded by the Australian Government and managed by the Australian High Commission in Tonga. The program invites proposals up to $50,000 pa'anga that demonstrate a strong development focus and that complement the broader Tonga Australia relationship.

Further information can be found here in the Guidelines.

Who can Apply / Ko hai 'oku lava fakahū ha tohi kole tokoni

The Tupulaki Community Grants program (the program) is available on a not-for-profit basis to community groups, local NGOs and other entities conducting development activities in Tonga. International organisations and National Government Ministries are not eligible to apply. If a community organisation has received Direct Aid Program funding before and did not successfully complete the activity, they cannot re-apply.

Eligible activities / Ngaahi ngāue 'oku malava tokoni'I 'e he polokalama ni

Activities that are primarily aimed at achieving practical and tangible outcomes of high development impact are eligible to apply. We favorably consider projects:

- that have a focus on gender equality, disability equity, environment and climate change, or income generation and livelihoods;
- that take place on the outer islands of Tonga;
- where applicants and communities make a significant co-contribution to the project;
- that have a clear plan for ongoing maintenance costs;
- that have a letter of support from relevant government representatives or community leader.

Organisations must have a focal point and an active bank account who can provide progress reports and financial acquittals to the High Commission. Your application must have a clear budget. Projects must have a timeframe of one year or less.

If you wish to discuss your proposal before submitting, please make an appointment with the grant coordinator to discuss. You can contact them by phone on 20424 or email at Tupulaki@dfat.gov.au

Notes / Fakatokanga’i Ange:

1. Building and construction related projects should meet or exceed Australian standards wherever reasonably practicable to do so.. Departure from Australian WHS standards on the basis that meeting such standards is not “reasonably practicable” should only be accepted where it is defensible to do so, supported by a clear, persuasive and documented explanation. In such cases, the project should meet the highest standard that is reasonably practicable, with hazard mitigation measures supported by a hazard identification and risk assessment report identifying the residual risks of injury and illness to any workers or third parties, and proposed mitigation strategy.
